SUMMARY

Fullstack Developer with hands-on experience building scalable web and enterprise applications, including Odoo-based business systems. Skilled in modern technologies such as React, Express, Next.js, and API integrations, with expertise in developing real-time systems, SaaS platforms, and payment gateway integrations. Experienced in customizing and extending Odoo modules to support business workflows, including POS and ERP solutions.

EXPERIENCE

PT. KAS PRIMA

Tangerang - Bogor

Odoo Developer/Fullstack Developer

Feb 2024 - Mar 2026

- Customized and extended Odoo modules to align with business workflows and improve operational efficiency.
- Built a Rest Area Monitoring (SLA) Dashboard to track service performance and ensure compliance with operational standards.
- Created a Ticketing System Dashboard for error handling and issue tracking, improving response time and system reliability.
- Designed and implemented a POS Dashboard to monitor transactions, orders, and revenue in real-time.
- Developed an Aggregator Dashboard to calculate and visualize percentage distributions for business analytics.
- Developed a SaaS POS platform with multi-company support and integrated WebSocket-based text-to-speech for automated queue calling after successful QRIS payments.
- Built a Registration Monitoring Dashboard from External Website (Nextjs) to track and analyze form submissions.
- Engineered a Car Wash Management Dashboard with real-time tracking, integrated with Winpay (QRIS) for payments and Autokirim for delivery services.
